# National Athlete Transfer Request Form

"Transfer" is the term given when an athlete moves their registration from one club to another. It is important to record/track this information to ensure the accuracy of club registrations (as this may have an impact on State Association fee structures). Transferring of athletes is also a way to try to protect clubs when athletes may have outstanding/overdue accounts. Transfers are required for both competitive and non-competitive athletes when moving clubs. All transfers between clubs are to be processed via Gymnastics Australia.

This is the only form accepted by Gymnastics Australia for transfer requests via a non-electronic method (i.e. Manual Registrations or Club Database Program). Clubs using Gymnastics Online have an automated electronic transfer system and are therefore not required to use this form to transfer athletes.
